Attention Parents/Guardians

Due to the current public health emergency surrounding COVID-19, we want to keep you abreast of processes that Phillips Pediatrics is implementing to protect the health of our patients, employees and the community.

At Phillips Pediatrics, we understand that you are counting on us to provide care for your child(children), while maintaining their safety.

****Coronavirus screening measures are still in effect, any patients who have a suspicion of COVID-19 infection call our office prior to coming in so we may assess the most appropriate care for your child.****

In addition, to limit exposure volume in our offices we ask:

- - If possible, only one parent come to your child's appointment.
- - If possible, please do not bring siblings or other children in who do not have an appointment.
- - If possible, please do not send grandparents/caregivers over 60 years old to appointments.

We appreciate your concerns and your trust, and we do hope many of these changes are temporary.

For the most up to date COVID-19 information please click here:
